Occam's Razor

Nurmister

March 2018

Current grand total (excluding shipping (mostly minimal)):

$130

Camera Module:

Camera+shield (allows for direct connection) ($52)

The associated library.

Arduino:

Headers ($2)

Data-logging shield ($9)

64 GB microSD card ($14)

Battery for shield ($5)

Power:

Battery ($10)

I think it would be prudent to buy just four initially, given the below apparatus. Doubling the number may be done if required.

4-holder with plug. ($1)

2-holder with plug. ($2)

2-battery charger. ($5)
